

# RFDELTA Daily Intelligence Brief - Demo Issue

Date: 2026-07-03

Public preview edition

## Public headlines

### AI assurance demand shifts from policy language to measurable test evidence

Buyers increasingly need traceability, replay, and evaluation evidence rather than generic responsible-AI claims.

Confidence: 82

### ISR modernization continues to reward open interfaces and edge exploitation

Payload and data-fusion programs are favoring modular integration, faster collection-to-decision cycles, and contested-network resilience.

Confidence: 78
